

Proven EPC Pvt. Ltd. is one of the leading consulting company, which is combination of consulting with technological expertise with more than 20 yrs of industrial experience.

We are multidiscipline engineering company with global reach who set a standard in quality ,cost effective solutions with innovative ideas .

We have association with esteem organizations from India and abroad to cater our services for following segments:

- **Energy** : Solar Power plants and Projects.
- **Environment** : Water and solid waste management.
- **Process** : Multidiscipline engineering.

We introduced ourselves as a “Solar Power EPC “having industrial knowledge and best technology tieups to provide complete turnkey photovoltaic solutions as per customer requirements and have emerged as a trusted partner

PROJECT PORTFOLIO

- Roof top 1+ MW till date
- Ground mount 1.2 MW
- Financial Assessment 50+MW
- Consultancy services 25MW

OBJECTIVES

- Quality** → **Quality:** Engineering/Procurement/Construction
- Efficiency** → **Efficiency:** System performance and product durability
- Cost** → **Cost:** Always provide cost effective solutions
- Delivery** → **Delivery:** On time delivery
- Reliability** → **Reliability:** Long term association, quality focus approach
- Services** → **Services:** Immediate and cost effective services

CUSTOMER SATISFACTION

MISSION

1. To Provide Global Multidisciplinary Engineering Services.
2. To build or provide environment friendly applications to promote Green Energy.

VISION

To become one of the respected & most trusted business consulting enterprise which should be recognized by our customers for delivering excellence in the field of Process, Environment & Energy.

CORE VALUES

RECOVER

RECYCLE

REGENERATE

REUSE

OUR SERVICES

1. Supply of Complete Turnkey Solar Power Plant & Systems

a) Solar Panel : Our expertise into P V Panel selection as per project requirements. It is important to select and design right numbers of P V Panels per String. It is also important to know and select right P V Panel bill of material.

b) Inverter : SUPPLY, INSTALLATION & COMMISSIONING

Solar String Inverter/Central Inverter (Grid Connected/Open Access/Captive)
Solar Off Grid PSU/UPS/CPU

c) Solar Modular Structure : Design, Analysis and manufacturing of solar structure. MOC HDG/AL

- Types Of Structure
- Ground Mount Solar Modular Tilted Structure
- Roof Top RCC Mount Solar Modular Tilted Structure
- Roof Top Metal Profile Shed Solar Modular Tilted Structure
- Ground Mount Elevated Solar Modular Tilted Structure (Car Port)
- Elevated RCC Roof TOP Super Structure

d) Electrical Services : We design, analyze and manufacture

- A.C. L.T. Panel
- Metering Panel
- APFC Panel
- D.C.J.B.

2. Engineering Design, Plant Installation and Commissioning :

We cover end to end Engineering, Procurement and Construction services for

- Roof top Solar Power Plant 5 Kwp till 5 Mw
- Ground Mount Solar Power Plant :- from 5 Kwp to 100 Mw.

What we do? :

- Physical site survey
- Commercial and technical feasibility report
- Engineering and designing of plant
- BOM and Budgeting and Procurement of plant equipment
- Approvals Design/Drawings
- Detail Engineering
- DPR & R.O.I. for Banking

3. Liasioning and Contract : We have team of experts who handles all the nitty-gritty of liasioning for getting all types of approvals from various government department such as MSEDCL, PWD Electrical and MEDA/DISCOM Energy Dept.

4. Financial Assistance : We also support in getting Finance through various finance companies for this we also carry out survey.

5. Maintenance : a) Comprehensive Miantenance, b) Preventive Maintenance

We provide one year free comprehensive maintenance services. Preventive Maintenance including daily cleaning, operation and monitoring shall be paid.

PROJECTS PORTFOLIO

Title : 30 kWp Grid Connected Roof Top Solar Power Plant at Shri Shivaji Horticulture College
Location : Phaltan, Satara
Year of Installation: 2017

Title : 1.2 MW Grid Connected Ground Mount Tilted Solar Power Plant at Govind Milk & Milk Products
Location : Phaltan, Maharashtra
Year of Installation: 2020

Title : 750 kWp Grid Connected Roof Top Solar Power Plant at Dr. PDDMMC
Location : Amravati
Year of Installation: 2019

Title : 125 kWp Grid Connected Metal Profile Roof Top Shed Solar Power Plant
Location : Amravati
Year of Installation: 2017

Title : 150 kWp Grid Connected Roof Top Metal Profile Shed Solar Power Plant at Rangoli Hotel
Location : Amravati
Year of Installation: 2021

Title : 30 kWp Grid connected Metal Profile Roof Top Shed Solar Power Plant at SYM Hall
Location : Islampur, Sangli
Year of Installation: 2017

Title : 140kWp Grid Connected Super Structure Type Elevated SPVPP at Shripal Hospital
Location : Baramati
Year of Installation: 2022

Title : 25 kWp Grid Connected Roof Top Solar Power Plant at Vidyanchal School
Location : Pune
Year of Installation: 2021

Excellence is a habit

Best Workmanship & Engineering practices.

On time delivery

Perfect analysis of plant performance matrix and ROI

Rigid Inspection procedure for High Performance

Complete in-house EPC Team from Consulting, Installaton to Operation & Maintenance

Sync with client objective and needs for successful project execution

Company values dedicated to enviorment

Value for client investment with assured generation & fulfillment of unsaid requirements

Complete after sales support

SALIENT FEATURE

EFFICIENCY

- Real time data analysis and commercial assessment along with commercial proposal.
- Commercial and Technical feasibility report is just a call away with no cost.

COST

- No Extra Cost charged on material procurement and manufacture items.
- Client to bare only services at low cost but high quality delivered.

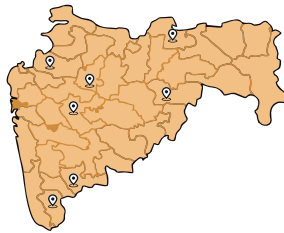

RELIABILITY

- Supplier contract agreement and reliability.

CUSTOMIZATION

- Tailor made solutions depending on client requirements

OUR PRESENCE

- Pune
- Amravati
- Aurangabad
- Nashik
- Sangali
- Buldhana
- Parbhani
- Bhandara
- Islampur
- Phaltan
- Akola
- A'Nagar
